A unique resort on a unique island – Pangkor Laut Resort

Pangkor Laut is a privately owned island located three miles off the West Coast of Malaysia in the Straits of Malacca. Situated on this exotic island is the internationally acclaimed Pangkor Laut Resort. Although the island encompasses a total of 300 acres, only a fraction has been developed to house the Resort and its Estates while the rest is covered by lush and unspoiled two million year old rainforest.

There are 148 Malaysian-style luxury villas in the main Pangkor Laut Resort and eight magnificent Estates in a nearby-secluded cove. Every villa, suite and Estate is elegantly

and furnished, yet complements and blends in with the surrounding natural environment. As the island is only accessible to the guests of the Resort and Estates, it makes the perfect private holiday getaway.

The Resort offers many fine dining opportunities, a wide range of facilities and activities, and has been widely praised for its attentive and gracious service. Voted the second best island destination in the world by Condé Nast Traveller (October 1999 issue), Pangkor Laut Resort consistently ranks high on the itinerary of international pleasure seekers.
